

AMERICANS HEAD ADVANCE ON PEKIN

The Start Was Made from Tien Tsin Early This Morning.

CHAFFEE IN COMMAND

British Troops First to Start with U. S. Contingent—Other Powers Follow.

MORE NEWS FROM MR. CONGER

London, Aug. 1.—[Special Cablegram]—An official dispatch from Shanghai this morning announces that the American and British troops began an advance upon Peking this morning.

The Russian, French, German and Japanese were hesitating about some orders from their respective governments. Soon, however, they fell in line, and the Peking rescue march has begun.

Alive and Well July 19

Washington, Aug. 1.—[Special Telegram]—Minister Wu laid before Secretary Hay this morning, a cablegram from Chang stating that the ministers were alive and well on July 19. Wu says that Chang and other viceroys have memorialized the throne, asking that the ministers be allowed to communicate freely with their governments, and that adequate protection will be given them; and if so desired that they be escorted to Tien Tsin. No answer was received to the memorial.

Remy cables that the ship Solace with the sick and wounded proceeds to Mare Island via Nagasaki and Honolulu. Biddle's command has been ordered to Tien Tsin.

Preparations for the Advance

Tien Tsin, August 1.—[Special Cablegram]—All the powers are rushing preparations for an advance on Peking. The Russians have their transport ready and the Americans are organizing cart trains. The British and Japanese are arranging a junk service for transports. The Japs under Fukushima are preparing to establish an advance base by the capture of Yang Tsuan, twenty miles north on the railroad.

Their scouts report fifteen thousand Chinese well entrenched near Yang Tsuan. The Fourteenth United States infantry arrived at Tien Tsin on July 27. The Russians have occupied Shan Hai Kwan, the Chinese evacuating without resistance.

EYE FOR EYE, TOOTH FOR TOOTH

France and England Have Fairly Warned the Chinese Government.

Washington, Aug. 1.—It is eye for eye and tooth for tooth. The governments of France and Great Britain have solemnly notified the Chinese government, Princes Tuan and their advisors that the Chinese government will be held to rigid accountability for the safety of the French and English citizens in Peking. "If our ministers and their suites perish," these governments have said to the Peking junta, "we shall hold you personally responsible."

These ominous warnings are conveyed through the Chinese ministers at Paris and London. To these ministers significant intimations have been made that for a murdered envoy the head of a prince of the blood will be demanded, and for every secretary or attaché or woman or child the head of a Chinese general or mandarin of the first class.

U. S. Has Made No Threats.

So far no other government has joined in these direct threats through official channels. The United States has given no warnings, but has permitted it to be understood that it is eager to join in the campaign of punishment. That is the attitude of all the other powers, save that Germany through the kaiser, has publicly announced a policy of implacable retaliation.

Confronted by a barbaric Chinese claim of coercion, with the foreign colony virtually held as hostages and their lives threatened if the powers advance to punish, the world accepts the challenge. It is believed here that the advance upon Peking began today, and that the American troops under General Chaffee are with the column.

Conger Has Been Heard From

Minister Conger has been heard from again. Under date of July 21, in a letter to the consuls at Tien Tsin, he says the armistice prevails, but "if they continue to shell us as they have done, we cannot hold out long."

Mr. Conger confirms the other reports that all the legations are running short of ammunition. There is even later news from Peking. A letter from Lieutenant Colonel Shiba, military attaché of the Japanese legation, left the capital the evening of the 22d. It graphically recites the anxiety of

the brave little colony for the coming of the relief column. "It is not probable we will be able to hold out longer than a week."

This week has now passed and there is grave anxiety here as to the fate of the foreigners, who have already endured five weeks of siege and suffering.

Will be an Awful Story.

Little by little the terrible story of Peking is leaking out to the world. There can be no doubt that when the full narrative becomes known we shall have a tale of savagery, of brave defense, of heroism, well high unparalleled in history.

A handful of Europeans and Americans penned up within brick walls and surrounded by tens of thousands of savage hordes. All the women and children gathered in the strongest enclosure, the British legation, and all of them, be it said to the honor of the international guards, safe up to the time the latest reports were sent out.

Courtesy of the Chinese.

The enemy attacked with both rifle and artillery. One night the shelling continued for six hours without interruption. What a night that must have been for the besieged, for the women and children!

More than sixty of the brave defenders have lost their lives and ninety-eight have been wounded. Two thousand of the Chinese assailants are estimated to have been killed.

Four attempts were made to fire the British legation in which more than 400 noncombatants were sheltered. The cowardice of the Chinese and the bravery of the defenders averted the destruction of the buildings and wholesale slaughter.

These are mere glimpses of the story of Peking which must soon come out in all its horrid details.

TOWNE MEETS BRYAN

Refuses to Say Whether He Will Withdraw From the Populist National Ticket.

Lincoln, Neb., Aug. 1.—The withdrawal of Charles A. Towne from the populist national ticket as a vice presidential candidate is still an undetermined question. Mr. Towne spent nearly all of today in Lincoln and most of the time was with W. J. Bryan, but just before he took the train for Chicago he said he was not prepared to say whether he would remain on the ticket or would withdraw. Neither Mr. Bryan nor Mr. Mr. Towne would discuss the mission of the latter or the subject of their conference. That it had to do with his withdrawal, however, there is little question.

STRIPPED AND PAINTED

Two Dowle Elders At Mansfield, O., Are Roughly Treated

Columbus, Ohio, August 1.—Last night a mob stormed a residence in Mansfield, Ohio, where four Zionists, (Dowle), elders were holding services and captured the elders. Two of the men, A. McFarlane of Marion, and G. F. Stevens of Chicago, promised to leave the city and were released. The others, E. P. Fisher and A. W. McClurkin of Chicago, would not make such a promise and the mob, after stripping them of their clothing, painted their bodies with ultramarine and paraded them through the streets. Afterward they left the town.

Paris Show Started Late.

The disappointment of the steamship companies because trans-Atlantic travel has not increased as much as they anticipated it would on account of the Paris exposition, and the suggestion that some of them may reduce their rates in midsummer are due in part to the fact that the Paris show is not completed. Had the exposition buildings and exhibits been ready, the travel would have been much heavier. —New York Sun.

GOV. ROOSEVELT TO BE THE STAR

PRINCIPAL SPEAKER IN THE REPUBLICAN CAMPAIGN.

It is the Wish of President McKinley—President to Devote Most of Time to Official Duties—New York Governor to Make a Tour of the Great West.

Washington, D. C., August 1.—The Republican national committee has decided that President McKinley's wishes shall be respected and that he shall not be called upon to take any great part in the campaign. He is the chief executive and not only the official demands upon him, but his sense of the proprieties, dictates that he should not make campaign speeches. He will remain at Canton the greater part of the summer, and no encouragement will be given to such pilgrimages to that city as were the rule in 1896.

On Special Occasions

The president will make some speeches on special occasions, but they will not be political speeches. He never has avoided the discussion of important questions before the people, and he will not avoid such discussion this year.

Governor Roosevelt is to be the campaigner for the national ticket. This has been definitely decided upon, and the campaign will be opened at the big Chicago meeting. His program after that has been decided upon in a general way, but the exact schedule of dates has not been fully prepared. He will leave Chicago on September 10 and will make several speeches in the northern part of Indiana. From there he will go into North Dakota and then to South Dakota and Utah. He will return through Nebraska, Missouri and Kentucky, and then go over into Iowa for a half dozen speeches in that state.

West Wants Roosevelt

There is a very strong pressure from the far West to have Mr. Roosevelt go on through Colorado to the Pacific coast. There is a disposition on the part of Senator Hanna and some of his advisers on the national committee to comply with this request from the far West, but the matter has not been fully decided upon. Just how he will travel and with whom has not been definitely arranged. It is highly probable, however, that he will go by special train, and some of the best orators in the house and senate, who are known in the particular localities which he visits, will accompany him at different times on the trip.

During the course of the campaign Governor Roosevelt will devote twenty days to campaigning in New York state. Other speakers upon whom the Republican national committee places great reliance are Senators Foraker, Fairbanks, Dodge and Beveridge, and Congressmen Dooliver and Grosvenor.

KAISER SENDS GUNS TO BADGERS

Chilton, Wis., Aug. 1.—Six Mauser rifles, the gift of Kaiser Wilhelm to the Chilton Krueger Verein, have been received here.

The guns are of the pattern of 1871, and have seen army service, but that makes them all the dearer to their owners, for the Krueger Verein is an association of veterans of the German army.

The Mausers will be officially presented in behalf of his majesty to the Chilton association by the German consul general, Mr. Weber, at Chicago, September 2.

Some months ago the branch of the veterans' association at Chilton conceived the plan of asking the Emperor of Germany for six army guns with which to fire salutes at the burial of the members of the association. A carefully worded petition was gotten up and sent to the German consul at Chicago, who forwarded it to the Emperor.

The residents of Chilton are preparing to hold a great celebration on the day of the presentation and will have a Krueger feast on that day, which by the way, is the anniversary of the German victory at Sedan. This occurred just thirty years ago, September 2, 1870.

Delegations are expected from all parts of the state, and there will not only be addresses by Mr. Weber, but by well-known German-American citizens of this state, including Theodore Kerten of Chilton.

HARD ON THE BUCKET SHOPS

Western Union Refuses to Disseminate Any More Gambling Information to Speculators.

Milwaukee Aug. 1.—Today the Milwaukee chamber of commerce was supplied with the official quotations of the Chicago board of trade by the Chicago & Milwaukee Telegraph company, arrangements having been made with the Chicago exchange temporarily for the service until a better system can be devised. The Western Union offered the chamber of commerce the New York quotations, but the tender was declined. The bucket shops in Milwaukee not supplied with private wire facilities will be obliged to close down or else continue business with New York quotations, and it is the consensus of opinion among the grain men of Milwaukee that the bucket shops are doomed.

MOTHERS' LEAGUE MEETS IN CHICAGO

DISCUSS NEIGHBORHOOD RELATIONSHIPS TODAY.

Some of the Leading Spirits in the Organization Who Are Present—Membership in the Society is Limited, But a General Attendance is Invited

Chicago, Aug. 1.—[Special Telegram]—The League of American Mothers opened its annual congress at Longwood this morning and will continue in session for three days.

There were numerous arrivals yesterday, women prominent in mothers' club work coming from all parts of the country.

The congress went to Longwood, a station on the Rock Island, southwest of the city, to meet again where the league was formed. Although only mothers are admitted to the league, a general attendance at the annual conference is invited.

Word has been received that twelve mothers from Texas are on the way to attend the meeting. Mrs. Lida J. Hardy, who has been an assistant to the Rev. Charles M. Sheldon, has arrived. Among others who are in attendance are:

Mrs. James T. Hughes, Toronto.
Mrs. Upson, Mason City, Iowa.
Mrs. J. B. Whaling, Van Buren, Ark.
Mrs. Jeanette G. West, St. Louis.
Mrs. H. I. Cramer, Wilmette.
Mrs. Gregory West.
Mrs. Maudie Crombie Wood, Hillsboro, Tex.
Mrs. Frank West, Aurora.
Mrs. Alice B. Biehlus, Macomb, Ind.
Mrs. George Sieberling, Akron, O.
Mrs. Carrie Ashton Johnson, Rockford, Ill.
Mrs. Josephine Jarvis.

This morning's session was one of great interest, as the question of neighborhood relationships has aroused much discussion. The views of the suburban resident, who knows every neighbor for a block well enough to drop in informally and discuss household matters, was contrasted with those of the city resident who does not even make formal calls on the neighbor in the next apartment. Mrs. Ellen Lee Wyman of Evans-ton led the discussion of this subject.

PENSION ROLL INCREASES

More Than 2,000 Names are Added During the Last Year.

Washington, D. C., Aug. 1.—The forthcoming annual report of Commissioner of Pensions Evans will show a grand total of 993,528 pensioners on the rolls on July 1 last. The figures on which the report will be based are now complete and ready for incorporation in the report. They show that on July 1, 1899, there were 991,519 pensioners on the rolls.

During the year 40,645 original pensions were granted and 4,699 names were restored to the rolls. To offset these 43,334 names were dropped from the rolls during the year, including 35,809 by reason of deaths, 909 by remarriages of pensioners, and 6,616 for other causes, leaving the total number on the roll at the last of this month 993,528.

This is an increase of 2,000 pensioners for the year. The number of claims of all kinds pending July 1, 1900, was 437,104 against 477,239 on July 1, 1899. The report shows a total of 260,797 names dropped during the six years ended June 30, of which 193,014 were because of deaths. The number dropped by death during the fiscal year just closed is about 14,200 less than was estimated.

CINCINNATI DOES NOT LIKE CENSUS

Leading Citizens Say Official Announcement of 325,902 Population Is Too Low.

Cincinnati, Aug. 1.—The city is not satisfied with the government census count. The figures give the population of the city as 325,902, an increase of but 28,994 over the 1890 census. Since that time Cincinnati has annexed with a total estimated population of something like 18,700. Subtracting this annexed population the actual normal increase of the city's population is far below the increase made from 1880 to 1890.

Cincinnati's population in 1880 was 255,139 and Cleveland's 160,146. In 1890 Cincinnati's was 296,908 and Cleveland's 261,353. If Cleveland has made a gain of 65,000 during the last decade she will appear in the census as the first Ohio city in point of population.

BRAGG WON'T SPEAK FOR BRYAN

Says He Does Not Decline Because of Poor Health.

Fond du Lac, Wis., Aug. 1.—Gen. E. S. Bragg received an invitation some time ago from the democratic state central committee to take the stump for Bryan, and yesterday received a similar letter from the national committee. He said today:

"I have been rather neglecting my reply to the invitations, but will get around to them this afternoon."

"Will you decline to speak on account of your health?"

"Not at all. My health is all right."

"What answer will you make?"

"I shall say that there is no occasion for me to go out and take the stump for the democratic ticket this fall, that is all."

Gen. Bragg supported Palmer and Buckner four years ago.

PIGS KILL AND DEVOUR CHILD

Infant Falls in the Pen and Father Finds the Mutilated Remains.

Spring Valley, Wis., Aug. 1.—At El Paso, this morning ten miles west of here, the infant son of a man named Grant was almost totally devoured by hogs.

The child had climbed up the side of the pen and was watching the pigs when he lost his balance and fell on his head. He was stunned and made no outcry. The animals, it is thought, immediately attacked the child and killed him.

When Mr. Grant came to the pen he found the pigs eating the body of his dead child. The body was almost totally destroyed when the father arrived.

George Dixon Loses.

New York, Aug. 1.—George Dixon, one of the greatest little fighters who ever donned a glove and for years invincible among the feather weights, met defeat at the Coney Island Sporting Club before Tommy Sullivan, a new Brooklynite star. The end came when the time was called for the seventh round. Tom O'Rourke, Dixon's manager and chief second, stepped forward and announced that the little colored fellow's left arm was practically useless and that he would not allow him to continue. Johnny White then declared Sullivan the winner. Later examination as announced by O'Rourke showed that Dixon's arm was broken in two places. The fight was fast from start to finish, although Dixon was evidently in very poor physical condition.

St. Louis, Aug. 1.—John C. Meyers, a well-known athlete, swam from Alton, Ill., to St. Louis, a distance of twenty-seven miles, in exactly six hours. He swam easily the entire distance, and was not greatly fatigued at the finish. Meyers attempted the feat last week, but was driven ashore by a storm. He wagered that he could make the distance in five hours, but lost.

ITALY'S KING WAS VICTIM OF A PLOT

Police Make Numerous Arrests Among the Mafia at Rome.

ANARCHISTS ARE GLAD

The Murderous Outfit at Paterson, N. J.: 'Rejoice in the Death of Humbert.'

NEW KING ARRIVES IN ROME

Rome, Aug. 1.—[Special Cablegram]—Arrests continue to be made, the police believing that King Humbert was the victim of a plot. Salvatore Quintavalli, a man named Lannor and Theresa Brugnoli, believed to be Bresci's mistress were taken into custody. The police say that each of these had planned to kill the king if an opportunity offered.

King Emanuel arrived here this morning and was met by the ministers. The party at once left for Monza.

New York, Aug. 1.—Gradually a number of facts concerning Gaetano Bresci, who assassinated Humbert of Italy, are being brought to light. He was a native of Tuscany, Italy, and came to the United States five years ago. He was not a naturalized American citizen, though his wife is of American birth. Bresci left Paterson, N. J., on May 22, sailing for Havre by the French Line steamer La Gascogne.

He told his wife that he was going to visit his birthplace in Italy to look after a little property that belonged to him. But he sailed under an assumed name, Branchi Gressari. His wife says she received a letter from him since he arrived in Milan, but he said nothing about killing the king. Mrs. Bresci lives in Hoboken. When shown copies of the papers containing the dispatch describing her husband and giving the date of his birth and other facts, she exclaimed:

"My God, can it be he? I cannot believe it. It is hardly two months since he left me and it was only three days ago that I got a letter from him telling me how happy he was and how soon he expected to be home."

Is an American Woman.

"I am so American woman. My maiden name was Sophie Neil. I met Bresci about three years ago in a weaving factory here in West Hoboken, where we worked together. I knew he was a socialist and all that and was opposed to kings and queens and capitalists, but my husband would never kill anybody intentionally."

"My husband was of an unusually quiet disposition. He said very little to others, even keeping his business affairs from me. But of late I had noticed that he was particularly quiet, and that caused me to think that he had something on his mind."

"If he was connected with any band or organized body of socialists or anarchists I know nothing of it."

Did Not Dare Talk

Bresci's most intimate friend in West Hoboken is Raffael Magnoli, a fellow countryman living at 718 Courtlandt street. When asked to give up a photograph of the assassin he refused, saying:

"It would be as much as my life is worth to part with that photograph. This part of West Hoboken is a perfect nest of anarchists. Were it known that I had given you information regarding Bresci I would have a knife in my back before I was twenty-four hours older."

There was a meeting of anarchists in Paterson last night, at which the killing of King Humbert was indorsed. A reporter who sought admittance was welcomed, as it was said that these anarchists wanted the whole world to know their sentiments. The principal speaker at the meeting was Ernesto Crevella, 21 years of age. In the course of an impassioned address he said:

"We are members of the group of anarchists to which Bresci belonged. He is a martyr. He has done what we would have him do. Ask me do we approve of the killing of King Humbert. I will answer the question before you ask it. Of course we do."

"It was not our instruction to Bresci to kill, but he has done what he knew to be right, and we will sustain him and give him our sympathy. Was Humbert ever kind to us? No. Was he good to the poor? No he was a monarch, and all monarchs, according to our vows, must die."

Says Others Must Die.

"Let Nicholas of Russia tremble, and let the new king of Italy prepare for death. They are both inhuman. They are inhuman because they are monarchs. They would not consent to take the places on the throne were they not inhuman. It is a republic that we want, and it is a republic that anarchists in every country will have."

"We do not starve, but there is a worse death than starvation. It is neglect. Who is responsible for this government? We will try to better it by fair means, and if we can't succeed, then we will resort to other methods."

CORN CROP IS IN
GOOD CONDITIONEARS BEGINNING TO FORM AND
PLANTS FREE FROM SMUT.

Good Barley Crop is Generally in Shock—Oats Being Harvested—Haying is About Completed—Pastures Are in Excellent Shape—Tobacco Outlook is Very Promising.

The mean temperature for the week was slightly higher than that of last week, especially over the northern portion of the state and along Lake Superior. There were no sudden or decided changes but the nights were quite cool, the daily minimum temperature ranging generally from 50 degrees to 60 degrees. The rainfall for the week generally light, few localities reporting a weekly rainfall in excess of one inch. Showers were general over the state on Tuesday, on which day most of the rain occurred. For the remainder of the week fair and pleasant weather prevailed. The rains of the last two weeks furnished sufficient moisture for present needs and streams and wells now contain about the normal amount of water.

The week has been favorable for corn, although the cool nights have tended to check rapid growth. The crop generally is in excellent condition; the plants are strong and vigorous and about as far advanced as is usual at this date. The ears are beginning to form and the crop is generally free from smut.

In the southern section barley is generally in shock. The late rains have caused the fields to become quite weedy and there is some complaint of the grain moulding in shock. Generally the crop is fair, although in some sections badly discolored.

Oats are generally ripe and with favorable weather most of the crop will be in shock by the end of the week. The stand is thin and the straw short, but the heads are fairly well filled.

Haying is about completed, except on marsh lands which were flooded by the heavy rains of last week. Considerable hay was damaged by the recent rains. Second crop clover has made rapid growth.

Pastures are in excellent condition and are furnishing an abundance of feed.

The week has been very favorable for tobacco. No hail of consequence has been reported from the tobacco section and the present outlook is very promising.

The apple crop will not be large but the quality fair. The rains have improved the late berry crop; blackberries and blueberries are abundant and of excellent quality.

SCHALLER WON THE
RICHARDSON TROPHYFIRST TIME A SCRATCH PLAYER
IN GOLF WINS OUT.

First Round in the Hart Medal Contest Took Place on the Buckleton Links Yesterday Afternoon—The Valentine Medal Contest Simmered Down to Three—Large Crowd Attended.

For the first time in the history of medal competition at the Wisconsin Golf club a scratch player has been able to win out. The victory is a well merited one, Mr. Albert Schaller winning the Richardson medal after a series of matches in which he has been handicapped from four to ten strokes. The final match for the trophy was played yesterday afternoon between Albert Schaller and Charles Dunn. With a handicap of four Schaller won the match by three up and one to play. The Richardson medal is a handsome trophy and the honor of holding it until the competition next year now belongs to Mr. Schaller.

The first round in the Hart medal contest was played yesterday afternoon. Sixteen gentlemen that had qualified for the match played off with the following results:

H. J. Cunningham, handicap 18, defeated Ed Baumann, handicap 18, 5 up 4 to play.

Sam Echlin, 18, defeated Bert Falker, scratch, 3 up 4 to play.

George Brownell, 10, defeated C. L. Fifield, 6, 7 up 6 to play.

Harry McNamara, 6, defeated Bernard Palmer, 18, 2 up.

Fred Puhler, 6, forfeited to Ross King, 10, after the first round, in which King was the winner.

Ed Peterson, 10, defeated C. G. Bennett, 18, 5 up 7 to play.

Frank Jackman, scratch, won from Mark Bostwick, scratch, in an excellent match, 2 up.

Frank McNamara, 19, defeated J. C. Nichol, 18, 1 up.

The playing for the Valentine medal now held by Miss Elizabeth Schicker, resulted in victories for the married ladies, one of whom will wear the medal for the next year.

Mrs. C. L. Fifield, scratch, defeated Miss Belle McLean, handicap 18, 3 up 2 to play.

Mrs. J. E. Fifield, 12, won from Miss Jonnie Baker, scratch, 1 up.

Mrs. W. A. Jackson, scratch, won from Miss Helen Fifield, 12, 2 up 1 to play.

The next matches for the Hart and Valentine medals will be held next Tuesday afternoon.

The number of events set for yesterday and the beautiful weather attracted a large crowd to the grounds, a large number of the spectators following the players around the course. After the matches an elegant supper was served, a large number taking advantage of it. An informal hop was indulged in later in the evening.

A Mother Tells How She Saved Her Little Daughter's Life

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended, and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering. Yours truly, Mrs. Geo. F. Burdick, Liberty, R. I.

He paid particular attention to the efforts which the league has made to secure amendments to the bankruptcy law.

MAMMOTH ENGINES
ECONOMIZÉ ON COAL

Northwestern Road Orders Six New 125 Ton Locomotives—Largest in Use On Any Western Road.

The two mammoth 125 ton engines which are being used on the Northwestern road, seem destined to revolutionize the construction of fire boxes. The engines are the first consignment of an order of six and are probably the largest now in use on any western road. After exhaustive experiments made with the first one received, it is asserted that it will burn on an average one ton of coal per 100 miles less than the engines of ordinary fire box construction and weighing from fifteen to thirty tons less.

If this be the case there need no longer be any danger of trouble with labor organizations on account of the added hardships and labor supposed to be required in firing big, modern engines. The new engines have been designated the "Northwestern type" and are a modification of the Atlantic type. Advantage has been taken of the trailing wheel to drop the frames to an extent which has permitted the boiler to be provided with a wide and at the same time quite deep fire box. The engines have a piston valve cylinder twenty inches in diameter with a stroke of twenty-six inches.

The driving wheels are eighty inches in diameter and 93,000 pounds are carried on them. The essential feature of the design lies in the boiler, whose two-inch tubes are sixteen feet in length and whose total heating surface is 3,000 square feet. In retaining a considerable depth of fire box while greatly increasing the width of the great space, a much greater proportion than usual of total heating surface is gained in the fire box where it is of the greatest value. The fire box is 102 inches in length by 65½ inches in width, giving forty-six square feet for grate surface. One of the new engines has been in use for several weeks on the Omaha division of the road and the most satisfactory results have been obtained. It is stated that almost perfect combustion can be secured with proper firing and this means less work for the fireman and less consumption of coal.

The new engines are capable of taking fifteen heavily loaded Pullman cars along at a rate of speed greater than one mile a minute, but the company does not intend breaking any records with them.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases that the army had to deal with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Green Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by Smith's Pharmacy, next to P. O., Kodak agents.

The soothing and healing properties of Chamberlain's Cough Remedy, its pleasant taste and prompt and permanent cures, have made it a great favorite with the people everywhere. For sale by Smith's Pharmacy, next to P. O., Kodak agents.

IN LEAGUE TO KILL KINGS.

Humbert's Assassin One of Band
Against Royal Lives.

QUEEN IS GRIEF-STRICKEN.

Manifesto to the Nation by the Ministry
in the Absence of the New King—
Italians Asked to Prove That Their
Institutions Do Not Die.

Rome, Aug. 1.—The Tribuna says the assassination is believed to have been the result of a pre-arranged plot. A non-militant anarchist is said to have declared that at a meeting in Paris lots were drawn and a man was chosen to kill King Humbert.

The socialist deputies Bissolati, Colajanni, and Battorne have come out in open denunciation of the assassination. They say that what the socialists desire is a triumph by pacific means, and not by violence.

Plot Hatched in America.
Several letters were found in Bresci's pockets signed Fabris. The contents of these and other letters in possession of the prisoner have not been divulged, but the police admit that they prove the plot for the assassination of the king was virtually hatched in Paterson. It is said that the Italian monarch was the first of four kings decreed to be removed by anarchists.

Evidence accumulates that after Bresci was designated as the assassin he became faint-hearted.

Twenty arrests of suspects were made in Milan today.

The second revolver which was found at the place where the king was killed is of French make. It has inscribed on it the date of the assassination of M. Sadi Carnot, the president of France.

Queen Margherita has asked Verdi to compose a requiem to be sung at the king's funeral. If he declines her majesty will ask Mascagni to accept the task.

Her majesty is reported to be in a pitiable state of grief. She refuses to leave the side of the bed on which the body of her husband rests. It is feared that her health will suffer.

Manifesto to the Nation.
The ministry today issued, in the name of the king, a manifesto to the nation, as follows:

"King Victor Emmanuel III. in ascending the throne, has to perform the painful duty of announcing to the country the awful calamity which has violently cut short the valuable life of King Humbert.

"The nation, wounded in its sincere affection for the august dead, and in a sincere feeling of devotion and adhesion to the dynasty, while execrating the cruel crime, will be plunged into profound grief for the venerated memory of a good, brave, and magnanimous king, the pride of his people and the worthy perpetrator of the traditions of the house of Savoy, by rallying with unshakable loyalty around his august successor, Italians will prove by their deeds that their institutions do not die."

Besides Bresci, five persons have been taken into custody at Monza.

Washington, August 1.—The War Department has issued an order for a general election to be held in Cuba the third Saturday of September to elect delegates to a convention to be held in Havana the first Monday of November. This convention is to frame and adopt a constitution for the people of Cuba.

Assassinated from Ambush.

In Grandma's Day.

Women were straight and strong. They could walk or work side by side with the men of the family. They lived under healthier conditions; there was more simplicity and less strain. To-day it's different. The woman has all the care of the house and the wear of motherhood which were never dreamed of in Grandma's day. As a natural result she's worn out when she ought to be in the full beauty of mature womanhood. Women who would preserve their health and strength should guard the delicate womanly organs. When these are diseased the whole body suffers loss of strength and beauty. Doctor Pierce's Favorite Prescription cures the diseases that weaken women. Inflammation, ulceration and female weakness promptly yield to the power of this great remedy.

"I had been a great sufferer from female weakness for about two years," writes Mrs. Emma Richardson, of Goss, Wayne Co., Ky. "I could do no work part of the time. I took four bottles of Dr. Pierce's Favorite Prescription and felt as well as I ever did."

COUNCIL IN ERROR

Lawyers say the common council cannot legally reduce the amount of the school fund. Section one of chapter VI. of the city charter says the city council shall have the power:

Second.—To annually levy and collect such amount as the board of education shall have determined and certified to be necessary for the purpose of maintaining the schools, and for the purpose of raising, etc., etc.

No authority is given the council by the charter other than above. It cannot dictate to the school board. The school board has the matter in its own hands, and can do as it pleases. The management of the schools, financially, as in every other respect is in the hands of the commissioners. The council can order the levy recommended by the board, or it can refuse to order the levy, but it cannot reduce the amount asked for.

The council, therefore, "exceeded" its authority when it cut the school board's allowance, and the school board should protect itself against such interference.

The Janesville schools are the pride of every citizen and no false economy should be practiced. Everyone knows that the schools are economically managed, and the board should have all the money it asks for. The personnel of the board is a guarantee that no extravagant requests will be made.

The Chicago ice trust, which recently jumped its prices skyward and the widely celebrated New York ice trust, were both organized under democratic administrations. This is pretty cheap argument, but it is as fair as the trust arguments advanced by our democratic brethren.

The railroads, it appears, are to be held strictly to the charter and the city ordinances—which is all right of course—but turn about is fair play, and why should not the same strict observance be required of the city authorities? Should Peter be robbed to pay Paul?

North street, it now appears, is one of the most frequently traveled thoroughfares in the city. All ye who travel over North street crossing more than 962 times a day, please hold up your hands—but please don't all speak at once.

There are other smells, beside those emanating from the stockyards, yet the voice of no public official is raised in protest. The location of the rottenness appears to be the standard rather than the quality thereof.

Perhaps it would be well to invite the Chicago & Northwestern company to pull up its tracks and get out of town. It only spends \$19,000 a month in Janesville and that amount certainly isn't worth having.

A Chicago man who was supposed to be dead and buried, recently turned up to testify in a law suit. You can't always tell what a Chicago man will do.

General Miles has changed his uniform, by adding another star. Brave General Miles! Let him have all the stars he wants.

Good evening! Is your axe dull? If so, if you go to the right place you can get the city council to grind it for you.

Of course you knew just what the county convention would do.

On second thought, however, per-

haps it would be better to keep the C. & N. W., and deposit some of the kickers.

HE HAS 52 AGAINST 51 FOR
APPLEBYON FIRST BALLOT.

Rock County Republican Convention in Janesville This Afternoon—Preliminary Organization—Nominating and Seconding Speeches for Sheriff—Big Crowd of Politicians Attend

Delegates to the county convention held at the court house today flocked into the city from all parts of the county. The hotels and restaurants did a thriving business at meal time and the streets had an animated appearance. On every corner parties of politicians each with their various followers talked over the important questions of the hour and sounded the different delegates to find out how they stood in regard to the candidates. Long before the opening of the convention a large number of people gathered at the court house anxious to get a good seat to listen to the convention proceedings.

At two o'clock the convention was called to order by Thomas S. Nolan, chairman of the county committee. P. M. Green of Milton, was elected temporary chairman and F. W. Coon of Edgerton, secretary.

The list of delegates from the several towns and cities was read by the secretary.

The following resolution was adopted: "Resolved, That the nomination of county officers in this convention be as follows: Sheriff, treasurer, county clerk, clerk of the circuit court, register of deeds, district attorney, county surveyor and coroner."

Cham Ingersoll moved that the delegates of the respective wards and towns cast the full vote of the town or ward they represent.

The temporary officers were then made permanent on motion of Frank Crow.

The following committee on resolutions was named: S. C. Carr, Cham Ingersoll and O. F. Nowlan.

Joel B. Dow of Nowlan in a neat speech presented the name of Geo. M. Appleby for sheriff. The motion was seconded by John C. Rood, city attorney of Beloit.

Cham Ingersoll voiced the sentiments of the other Beloit speakers.

Charles Taylor of Spring Valley put in nomination of Ira U. Fisher of Footville for Sheriff.

H. L. McNamara seconded the nomination of Ira U. Fisher.

W. S. Heddles of Edgerton put in nomination the name of R. J. Maltress for sheriff.

Frank Crow of Evansville seconded the nomination of R. J. Maltress.

O. F. Nowlan presented the name of Wallace Cochrane of Janesville for sheriff.

W. J. McIntyre seconded the nomination of Wallace Cochrane in behalf of Third ward of city of Janesville.

At 8 o'clock the convention proceeded to a first formal ballot for sheriff, 182 votes cast: Appleby, 51; Fisher, 52; Cochrane, 24; Maltress, 35. On the first ballot it was found that there were 4 votes too many and was declared no ballot.

Cochrane gained seven on the second ballot which stood: Appleby, 46; Fisher, 52; Cochrane, 31; Maltress, 35.

The third ballot resulted as follows: Appleby, 55; Cochrane, 23; Fisher, 53; Maltress, 32.

The fourth ballot resulted as follows: Appleby, 53; Cochrane, 24; Fisher, 51; Maltress, 36.

The fifth ballot resulted: Appleby, 55; Cochrane, 27; Fisher, 54; Maltress, 21.

Sixth ballot—Appleby 55; Cochrane 24; Fisher 60; Maltress 25.

The seventh ballot resulted: Appleby, 57; Cochrane, 22; Fisher, 60; Maltress, 25.

The eighth ballot resulted: Appleby, 54; Cochrane, 21; Fisher, 60; Maltress, 28.

Tourists a Nuisance in South Africa.

One of the curious features of the war in South Africa is the fact that a number of tourists have gone down to Cape Town in order to be near the scene of operations. So numerous have they become that they have been voted a nuisance by the British commanders, and warning has been sent out that no more visitors of the kind are needed or desired there.

Vegetarians' Argument.

Those persons who object to eating meat have many strong arguments to support their case. In Health Culture one writer says it has been estimated if only meat from strictly healthy animals were marketed meat could not be bought for less than \$1 a pound. At least seven-tenths of the world's population never eat flesh meat.

Raising More Hemp in Kentucky.

There will be more hemp raised in Kentucky this year than has been raised in a great many years. There was a time when hemp was the main product of Kentucky, but in late years it has become such an expensive article to raise that the farmers gave it up. Now the price of hemp is high and the farmers are taking advantage of it.

PUSHING THE WORK ON MORGAN FARM

FINE RESIDENCE GOING UP ON
BANK OF TURTLE CREEK.

The Building, it is Said, Will Cost About \$50,000—Scientific Driveway From the Clinton Road—Dam Across Turtle Creek—Fine Barns and Out-buildings.

The work of excavating for the cellar and basement of the residence on the Morgan farm has been completed and as soon as the mixing machine, ordered from the East, arrives, the construction of the great walls will be commenced, says the Beloit News.

The residence site is on a high embankment overlooking Turtle creek, and a scene of rare beauty is disclosed to the eye—spreading meadows and woodland and stretches of grain fields. It will be of the colonial style of architecture with a Spanish roof. Verandas will extend along the west side and south end of the building where a view may be had of several miles extent.

Inside, the house will be commodious and handsome. The ground plan covers an area of 50x150 feet, as already stated, and besides the reception rooms, parlors and dining room, there will be a library 24x32 feet in size, and a large billiard room.

Building to Cost About \$50,000.

The entire cost of the building alone is estimated at from \$45,000 to \$55,000. If no serious delay is encountered the house will be enclosed by the time cold weather sets in and the work inside will be continued during the winter months.

A start has also been made on the driveway which will lead to the residence from the Clinton road. Commencing at the Montayne farm the road will extend north about a half a mile and then turning to the east will follow the course of the creek, winding in and out of the stream for a distance of perhaps a mile.

Material Used in Road-Making.

This road will be constructed entirely of gravel and the coarser sizes being laid first and rolled down by the 28,000 pound steam roller, each coating being wet thoroughly before rolling. On the top will be placed the finest sand and gravel that comes from the stonecrusher and after this has been given an extra coating the roller will be put on and it will be packed down as smooth as a floor. Besides the front driveway there will be a road leading off across the fields to unite with the Janesville road. About three miles in all will be built on the farm.

A dam across Turtle creek just below the residence will utilize the stream for water power to run an electric light plant and machinery of various kinds. The stream will be dredged making it deeper and the back water will furnish a mile of beautiful boating. The creek will also be stocked with fish. Part of the broad meadows will be utilized for golf links and other sports.

East of the house and located on the back of the stream will be erected the barns and outbuildings which will be the home of the blooded stock with which the farm will in a few years' time abound.

HOW A BIG CIRCUS SHOW IS HANDLED

Harry Middleton the Press Agent of the Wallace Concern Tells How it is Done.

Harry L. Middleton one of the agents of the great Wallace show which comes to this city next Friday was in town today and talked interestingly of the travels and travails of the circus and some of the incidents relative to handling the great business.

"Few people," he said, "except railroad men know the work attached to handling a big show like this one. The circus of today travels in its own especially constructed cars with conductors and brakemen regularly employed and all that is required of the railroad are the engines.

"The first section of the train consists of the baggage, canvas and tableaux wagons, the next has the stock and the third sections is made up of the sleepers, carrying the performers and employees. As soon as the first section arrives in town it is placed at the crossing of one of the principal streets and long runs are placed so the wagons can be unloaded from the end of the cars. The watchman, also employed by the show, as soon as daylight appears awakens the boss 'razor back' who in turn calls out his crew of 'razor backs' to unload the train. The name 'razor back' was given the crew on account of the close places through which they have to go some times.

"The system used in unloading a circus train is perfect; every man has a certain thing to do and he does it promptly. In unloading a car one man guides the wagon tongue down the 'run.' Four men are on each side to push it. On one side of the car is a 'tail pin' and a man is stationed by it with a long rope. Attached to the rope is an iron hook, and as the wagon passes the 'tail pin' the man hooks the rope into a ring in the rear of the wagon and takes a few turns around the pin with the rope. As the wagon goes down the 'run' he eases up on the rope and the wagon glides down the decline into the street.

"As soon as the first wagon is off the car another is run into position to be let down. As soon as one car is unloaded, instead of moving the empty car as one would naturally suppose, two small iron runs are laid across the space between the two cars, and the wagons are run over these. In this way valuable time is saved and the train is kept intact.

"The first wagon unloaded is the 'cook house' wagon, which is at once driven to the grounds where it is unloaded and the cooks prepare breakfast for the workmen. The next wagon off the car is the 'stake and chain' wagon, then comes the pole, canvas and baggage wagons and the last off the cars are animal wagons. In this way as fast as the wagons are driven on the grounds they are unloaded and their contents used. By the time the animal wagons are on the lot they can be placed in position in the menagerie where the animals are fed before the parade starts."

DOROTHA THUSEN IS FOUND INSANE

Caused by Brooding Over the Death of Her Sister, Which Occurred in Milwaukee Years Ago.

Dorothy Thusen, wife of William Thusen, of the town of Harmony, was examined yesterday by a commission of physicians appointed by Judge J. W. Sale of the county court, as to her sanity. The commission, composed of Dr. W. H. Palmer and Dr. James Mills, examined the woman and pronounced her insane. She will be taken to Mendota tomorrow morning at 9:30 o'clock.

The woman's condition was first caused by brooding over the death of her sister, who died in Milwaukee some years ago. It was helped along by overwork and running down in health. She was not insane all the time, but would have attacks lasting for a period of two or three days. During these periods she was very violent and had a disposition to attack people, making it dangerous for her to be kept in the family.

Mrs. Thusen is the mother of two children. She is a native of Denmark, having been born at Halksegen, in that country.

OSTEOPATHY

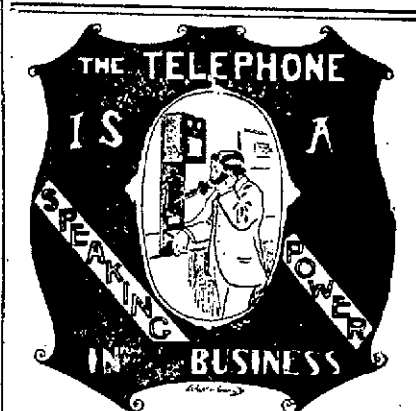

Is a comparatively new science, and consists in the treatment of diseased conditions of the body without the use of drugs.

The principle and theory of Osteopathy is very easy to understand when once a satisfactory opportunity is given to be explained.

Osteopathy is applicable to the treatment of all diseases. Indigestion, Torpid Liver, Dyspepsia, Constipation. There are no more common ailments than these, and none respond more readily to Osteopathic treatment. Neuralgia is often relieved almost instantaneously and sufferers from Rheumatism may find relief when all other methods have failed.

Wilds Defends His Officers.

Washington, D. C., Aug. 1.—The navy department has received the following cable from Capt. Wilde of the Oregon, which is in dry dock at Kure undergoing temporary repairs:

"Kure, July 31.—Secretary Navy, Washington: Please correct press statements of inefficient officers on Oregon. No ship has more efficient officers. WILDE."

The dispatch from Capt. Wilde came as a surprise to the department as there had been no disposition here to criticize either him or his officers for the mishap to the great battleship.

Dear Sirs:—Some days since a package of your GRAIN-O preparation was left in my office. I took it home and gave it a trial, and I have to say I was very much pleased with it, as a substitute for coffee. We have always used the best Java and Mocha in our family, but I am free to say I like the GRAIN-O as well as the best coffee I ever drank.

Respectfully yours, A. C. JACKSON, M. D.
